

# Global Passport - Intercultural Readiness Check

Crown Relocations is proud to present Global Passport Intercultural Readiness Check. Intercultural Readiness Check IRC (© 2001-2010 IBI)

Explore and discuss your intercultural competencies and develop strategies on how to interact successfully in multicultural environments.

# Intercultural Readiness Check

## Accurate Assessment

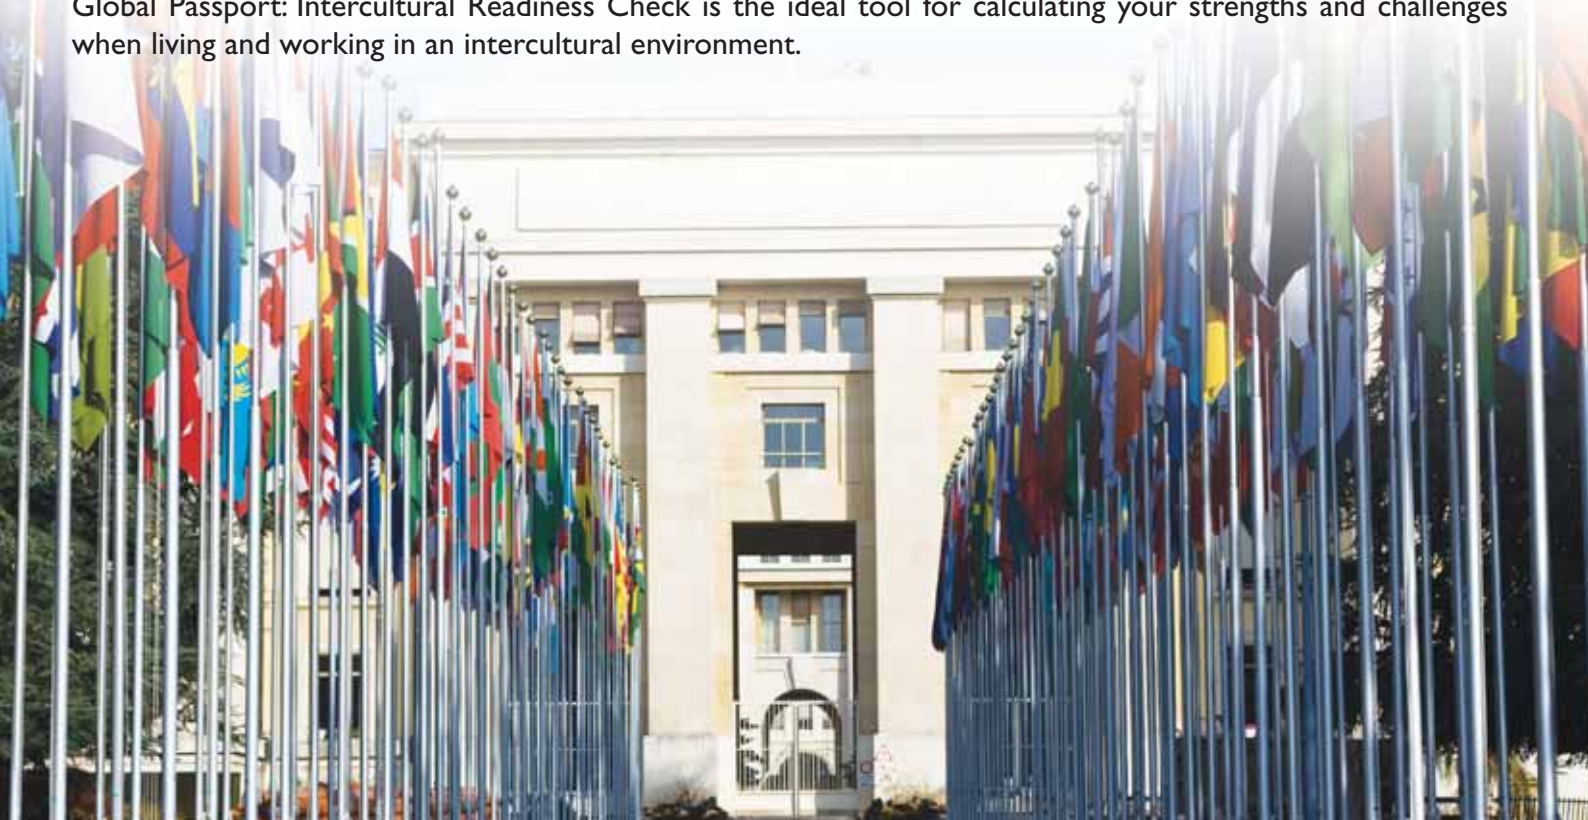

The IRC is an internationally recognized tool in the field of intercultural online assessment. Based on a specifically created questionnaire, it explores four vital intercultural competencies: intercultural sensitivity, intercultural communication, building commitment, and managing uncertainty.

To date more than 15,000 members of international organizations from 120 countries have completed the IRC, making the database one of the largest sources of information on intercultural competencies worldwide. The IRC is available in English, Dutch, French, German, and Spanish. It is accessible on-line from any computer anywhere and takes an average of 20 minutes to complete.

## Strategies for Development

The results of the assessment offer a detailed analysis of how you perceive your own culture and others, as well as the potential challenges your approach might pose with regard to an assignment abroad or when working and living in multicultural environments. From the results of the assessment, you get a clear grip of the challenges currently being experienced, or that lie ahead. A Crown certified intercultural expert will provide an in-depth personalized feedback during a debriefing call and constructively advise you on your strengths and developmental areas for each competency.

As part of your pre-departure preparation or as a supplementary learning aid for your intercultural training, Global Passport: Intercultural Readiness Check is the ideal tool for calculating your strengths and challenges when living and working in an intercultural environment.
