THE CROWN WORLDWIDE GROUP LAUNCHES ITS 2014 SUSTAINABILITY REPORT

November 5, 2014 – The Crown Worldwide Group is delighted to announce the launch of its 2014 Sustainability Report.

This year's Report marks a milestone for Crown as for the first time the company compares actual environmental performance against global targets. It also reports on a much broader range of sustainability topics than previously: in addition to the environment, community outreach and health & safety, the Report shares what Crown is doing in relation to human rights, fair labor practices and anti-corruption.

It shares some of the many local CSR initiatives carried out in each country where the company has offices – and the positive impact that Crown has upon the communities in which it works.

Through the Report, Crown – soon to celebrate the 50th anniversary of its founding – reaffirms its commitment to the principles of the United Nations Global Compact.

Jennifer Harvey, Director of CSR, commented, "Being a responsible company involves being open about our progress on sustainability. This means sharing our successes *and* our challenges, then committing to measurable targets for the future. In Crown's mission to care for the world around us, we are pleased to share all of this with stakeholders, through this Report."
