**CROWN**   
RELOCATIONS

# We invite you to join us

Crown's responsibility to our clients, our colleagues and our local communities is shared by every employee in our organization. It is extremely important to us all and is driven by our company brand values.

Join us for this Gift Box program in partnership with The Salvation Army to share with the community you live in.

## Reduce - Reuse - Recycle

What does this actually mean?

What do you do to reduce household waste and consumption?

A simple solution to increase your contribution is to recycle and reuse - to donate !

Donated goods are sorted and distributed to family stores in Hong Kong and Macau. By simply donating instead of disposing, these items really make a difference to the lives of home alone elderly, street sleepers, ex-prisoners and the residents whose income is not sufficient to meet basic needs.

## What you can donate?

- Clothing, footwear, handbags and accessories, either brand new or used in clean condition
- Electrical home appliances in working order
- Electrical office equipment, such as a computer or printer, in working order
- Toys, stationery, books, gifts and premiums
- Software, DVDs, VCDs, CDs, with copyright

## The following items cannot be donated:

- Furniture, used bed mattresses or bedding
- Medicine
- Food
- Worn-out or broken items
- Used kitchenware
- Used underwear or towels

If you want to donate some of your goods, gather them in a Crown moving box and label it with the GIFT sticker we've provided you.\*

For further details, please contact your Crown consultant or call us:

**+852 2636 8388**

*\*Donation delivery service is for Crown Relocations' customers only and is available at the time of relocation. Boxes will be collected during scheduled packing days.*

“

A truly successful company is one which finds a way to return some of its rewards to the communities in which it operates. I feel a company cannot consider itself truly successful unless it makes an active effort to give back.

Being a socially responsible corporation can manifest itself in many ways: contributing efforts to needy causes, helping to protect the environment, enhancing educational opportunities and many other activities. All of these have the goal of making life better for all we come in contact with.

”
